

We did it!!!

SOME HAVE A
STORY
- WE MADE -
HISTORY

Against all odds — and despite countless challenges along the way — the TRACS study has officially reached its minimal sample size ($n=566$). When we began this journey, many doubted it could be done. But thanks to determination, teamwork, and an unwavering belief in the value of this research, we have achieved a milestone that once seemed out of reach. This accomplishment is more than just a number: it marks the beginning of insights that have the potential to change the future of cardiology. Thank you to everyone who contributed, supported, and persevered.

*The road was tough, but together, we made history.
Waiting TRACS-PRIME, the enrolment remain open!!!*
